## ECPB workshops 2024

Connect with the Major Stakeholders in Paediatric Burns

**European Club for Paediatric Burns Workshops 2024 - November 28 -30th**

**The Netherlands - Wijk aan Zee (close to Amsterdam)**

Dear supporters,

It is with great pleasure that we present to you our initiative for this unique joint meeting of European Club for Paediatric Burns Workshops 2024 from November 28th to 30th at the Congress Hotel "Het Hoge Duin" in Wijk aan Zee, situated right at the beach and just a stone's throw away from the vibrant city of Amsterdam.

Doctors and nurses, social workers and therapists will meet to share their experiences in burn care, all with the aim to promote and improve comprehensive paediatric burn care worldwide. In 2,5 days our delegates will be able to follow lectures and participate in hands-on workshops.

### Hot Topics

- Pain-free burn care without medication
- How much do we differ (in burn care) from each other?
- What can we learn from paediatric burn nursing?
- What is the impact of burns on growth and development?
- What are mathematical modeling and artificial intelligence bringing us?

We offer you, as our industrial colleagues and co-operators, the possibility to present your products and latest developments to our delegates in the following formats:

- Unique workshops covering topics of your interest, for a limited number of participants.
- Several time slots for lunch symposia will be available, serving the total audience of attendees or part of the delegate community.
- Exhibitor booths can be positioned at the conference center as part of the commercial exhibition.
- Several other opportunities for visibility are available upon request.

### What:

It is our ambition to present and discuss newest developments in paediatric burn care and science. Our key note speakers will guarantee that you will be offered the latest and the best what science has to offer in these fields.

### Where:

Beach hotel 'Het Hoge Duin' – Wijk aan Zee (close to Amsterdam)
